Marine Isolator – Negative [SIL2]

Part No.	55000-721MAR
Manufacturer	Apollo

Image not provided

Summary

The Marine Isolator is placed at intervals on the loop and ensures that, in the case of a shortcircuit, only the section between the isolators will be affected. When the short-circuit is removed, the isolators automatically restore power and data to the isolated section. Detects wiring shortcircuits using patented technology Minimises disruption from short-circuits Automatic de-isolation on short-circuit removal

Specifications

warranty	10 year
