Discovery Marine Heat Detector [SIL2]

Product reference	
Part No.	58000-400MAR
Manufacturer	Apollo

Product overview

The Discovery Marine Heat Detector features a low airflow resistance case and a single thermistor to sense the air temperature around the detector.

Technical specifications

Heat classification	A1R, A2R, A2S, CR, CS	Detection principle	Temperature sensitive resistance.
Alarm level analogue value	55	Protocol voltage	5 to 9V peak to peak
Weight	105g	Quiescent current	400µA
Materials housing	Polycarbonate	Quiescent current tested at	24V dc
Materials terminals	Nickel plated stainless steel	Humidity	0% to 95% (no condensation or icing)
Product length	42mm	IP rating Value	IP54
Product diameter	100mm	Humidity Note	no condensation or icing
