Orbis Marine Heat Detector (BR) – Flashing LED

Product reference	
Part No.	ORB-HT-41015-MAR
Manufacturer	Apollo

sales@maxonemarine.com

Product overview

The Orbis Marine Heat Detector uses a single thermistor to sense the air temperature around the detector. Not available for the UK market. Base inclusion is unverified. Confirm control-panel and mounting-base compatibility and included components before ordering. Follow the manufacturer installation instructions.

Technical specifications

Heat classification	BR	Sampling frequency	Once every 4 seconds
Minimum 'detector active' voltage	6V	Humidity	0% to 98% (no condensation or icing)
Holding voltage	5 to 33V	Humidity Note	no condensation or icing
Minimum voltage to light alarm LED	5V	IP rating Value	IP44
Quiescent current	95µA	Weight	70g
Quiescent current tested at	24V dc	Product length	36mm
Polarity	L1 &, L2 are polarity sensitive	Product diameter	97mm
Alarm load	600Ω	Materials housing	Polycarbonate
