BD-200M Interactive Heat Detector

Product reference	
Part No.	116-BD-200M
Manufacturer	Autronica Fire and Security AS
Model	BD-200M

Key product facts

01 · Supply voltage
10 - 27 VDC

Product overview

Autronica BD-200M interactive point heat detector, supplied as a complete detector under article 116-BD-200M.

Key features

- Heat response depends on the configured detector class; working temperature is an environmental rating.

Technical specifications

Model	BD-200M	Supply voltage	10 - 27 VDC
Manufacturer article number	116-BD-200M	Degree of protection	IP56
Weight	400 g	Working temperature	-30 to +80 °C
Material	Polycarbonate Macrolon	Relative humidity (non-condensing)	Max. 95% RH
Colour	Light grey	Configurable heat detector class	A1, A1R, A2S, B, or C (response thresholds listed in manufacturer Table 1)
