UB-6-PA66 Detector Base Plate

Product reference	
Part No.	5100449-00A
Manufacturer	Consilium / Salwico
Model	UB-6-PA66

Key product facts

01 · Ingress protection
IP22

Product overview

UB-6-PA66 is a low profile base plate for smoke, heat and flame detectors.

Installation & compatibility

- UB-6-PA66 is developed to replace the following bases: • UB-2 • UB-5 Please see separate document “Base Matrix” for information about suitable bases for detectors.

Technical specifications

Manufacturer Article Number	5100449-00A
Ingress protection	IP22
Material	PA66
Colour	Signal white, RAL 9003
Weight	~65 g
Base compatibility and environment	Dry, clean spaces; addressable or conventional systems. Check the manufacturer Base Matrix because some detectors require special bases.
Loop cable and locking	Minimum 2x0.5 mm² unshielded twisted-pair loop cable; CN, EV and EVC detectors can be locked with a 1.5 mm hexagon key.
Detector-specific connections	Not all detector types have remote outputs. For units with short-circuit isolators, use the connection diagram in that unit’s own datasheet.
